

YEAR BY YEAR MENTAL ARITHMETIC TESTS

These are based on the NC demands for each of the years. They should be used in the following way.

- 1) A Fortnightly, moving to weekly, test for 10 minutes undertaken by the children.
- 2) After each test children mark their own whilst the teacher models how the answer was arrived at
- 3) A weekly score is kept

Change the date each week and you get a brand new test.

Advantages –

- a) Whatever your current Maths topic, all elements of the years number work is tested every week so that previous topics are not forgotten
- b) They provide a good final, end of year assessment test to aid decisions for Teacher Assessment
